Education

BSc Honors in Computer Science , University of Zimbabwe, Harare

August 2020

Employment History

Nocode Associate at nocode rebels, Ukraine

April 2023

I'm riding the No-Code revolution, leveraging nocode tools like WeWeb and XANO to create seamless and efficient solutions.

University of Zimbabwe Huawei Student Ambassador at Huawei Technologies, Harare

April 2022

I am privileged to represent two powerhouse institutions dedicated to shaping the future of technology and education. As an ambassador, I am passionate about driving innovation, fostering technological advancements, and empowering fellow students to embrace the digital age. Together with Huawei, we aim to create a platform for aspiring tech leaders, encouraging collaboration, and igniting a passion for cutting-edge solutions.

Mobile Application Developer | Flutter at Afrosoft Holdings Limited, Harare

November 2023 — May 2023

My role encompassed designing, developing, and deploying beautiful user-friendly Android and iOS Mobile Applications, enabling me to refine my skills and deliver impactful solutions.

Software Engineer at Telco Broadband and Beyond, Harare

September 2022 — November 2022

At Telco Broadband, I thrived as a software engineer attaché, mastering Odoo installation and support for corporate ERP solutions, while exploring Python for app development and automation. Embracing the dynamic Linux environment, I honed my skills to become a versatile tech powerhouse. A journey of growth and innovation, leaving a mark in the world of software engineering.
